April 25, 1908.

To Superintendents,

Gentlemen:-

In order that the Department may be able to profit to the greatest possible extent from the experience gained in the district institutes of this year, each superintendent is requested to forward a report on the institute conducted in his district. What is desired is a brief report of what was done, and a fuller statement of the opinion of the superintendent as to the value of the institute to the teachers, its value to the superintendent its effect on the public, and suggestions as to the wisdom of following a similar plan for the coming year, or recommendation for changes which should be made.

In addition to the above report each superintendent who has conducted one or more institutes outside of his own district is requested to make a report on each one, giving in a similar way his impressions of the value and results of the meeting, of the capacity of the teachers for intelligent discussion of professional questions, and of their general attitude toward such work.

Respectfully,
